Resource and garbage sorting app to be released in June 2024
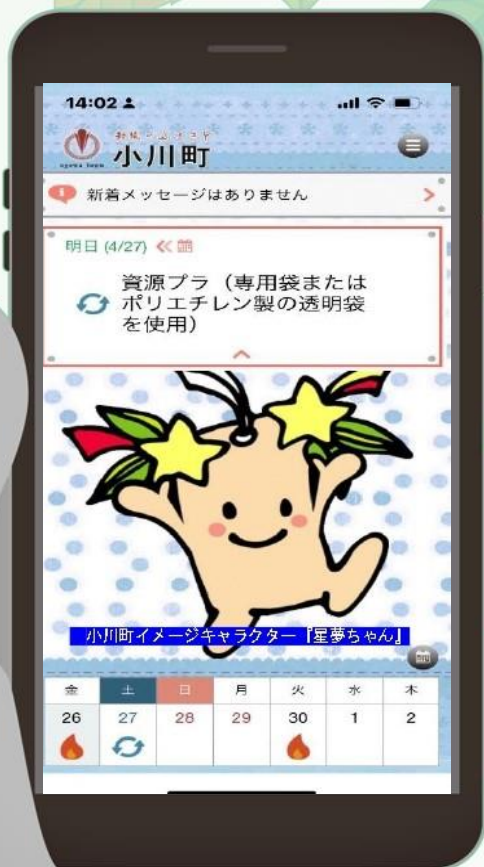

さんあ～る® for iPhone for Android

" Have you ever wondered how to separate resources and garbage, or what days they will be collected ?"

The resource and garbage sorting app **"San-R"** allows you to easily search for sorting methods ,

This app has a function that notifies you of collection days for recyclable resources and garbage .

There are also quizzes that you can take to learn in a fun way .

Classification search

- You can search for sorting methods based on the name of the resource or garbage item .

Resource and garbagesorting guide

- You can check detailed instructions on how to separate and dispose of waste, as well as important points to note .

Collection Day Calendar

- By setting your area of residence, you can check collection days in calendar format.
- There is an alarm function that notifies you of collection days.

Notification function

- You can check information about resources and garbage.

inquiry   Waste Management Section, Environment, Agriculture and Forestry Division
